Prakash Tiwari

prakashtiwarie06@gmail.com +91 9335955385 prakash-tiwari-8900bb2b2 Tiwari1782

Profile summary

Software Developer with a methodical approach to problem decomposition, system design, and full-stack application development. Proficient in Java, with operational knowledge of Python and JavaScript, and a consistent record of solving 100+ algorithmic problems across recognized coding platforms. Has delivered modern, interface-driven web applications leveraging React/Vite, Tailwind CSS, Node.js/Express, secure JWT-based authentication, and RESTful architectures. Experienced in managing both SQL and NoSQL data stores and well-versed in industry-grade tooling such as Git/GitHub, Docker, and Postman within collaborative engineering environments.

Education

- **Bachelor of Technology (Computer Science and Engineering)** 2024–2028
  Chandigarh Group of Colleges, Jhanjeri
  CGPA: **9.1**
- **Senior Secondary School Education** 2022-2023
  APS Nehru Road, Lucknow
  Percentage: **78%**
- **Secondary School Education** 2020-2021
  Army Public School Nehru Road, Lucknow
  Percentage: **90.6%**

Projects

OpsPulse: Smart app for companies that have field workers

- Currently developing a full-stack web application for companies with field workers to automatically track work, incidents, and compliance using AI. (**Admin, Support Agent, End User**).
- Field staff management with OTP-based login and role-based access.
- Focused on **scalability, reliability, and fault-tolerance** in Job Assigning.
- **Tech Stack:** Node.js, Express.js, MongoDB, EJS, JavaScript, HTML5, CSS3

F1-Race-Replay

- A Python application for visualizing Formula 1 race telemetry and replaying race events with interactive controls and a graphical interface.
- Race Replay Visualization: Watch the race unfold with real-time driver positions on a rendered track.
- Lap & Time Display: Track the current lap and total race time.
- **Tech Stack:** Python

FarmConnect

- FarmConnect is a revolutionary direct farm-to-consumer marketplace designed to empower farmers by eliminating middlemen and enabling them to sell their crops directly to customers.
- AI-Powered - Disease detection, chatbot support, and smart recommendations
- Accessibility - Hindi language support to remove technology barriers.
- **Tech Stack:** HTML5, CSS3, JavaScript, Node.js(Backend) and Render

Skills

- **Technical Skills:** Java, HTML, CSS, JavaScript, C++ STL, Node.js (Basics), Express.js (Basics), Git, GitHub, MySQL, MongoDB
- **Soft Skills:** Leadership, Problem Solving, Teamwork, Communication, Adaptability, Time Management
- **Core CS Concepts:** Data Structures & Algorithms, Object-Oriented Programming, DBMS, Computer Networks, Computer Organization and Architecture

Achievements / Participation

- Solved **100+ coding problems** across LeetCode.
- Secured Top 8 position at **GenAI Hackathon, ML Chandigarh**.
- Maintained an **87+ day coding and contribution streak** on Leetcode demonstrating strong consistency and continuous skill development.
- Secured Top 10 position at **HackChrono, Chandigarh University**.
- Participated in multiple coding contests across platforms such as LeetCode and Hackerrank along with several local competitive events.
- Engaged in multiple hackathons, enhancing problem-solving speed, teamwork, and buiding practical solutions.

Certifications

- **Programming Fundamental in Python** — Certified by Infosys
- **CSS Certification** — Issued by HackerRank
- **Web Development Internship Certification** — ApnaCollege
- **Technology Job Simulation** — Deloitte University
- **GenAI Professional** — Oracle University
